

Dear Property Owner/Resident:

Re: Water Shut down for District of Port Hardy Water Main Replacement, Fort Rupert Reservoir and Water Treatment Site Development – Contract 1

There will be a water shut down for installation of a new water line on Fort Rupert, Byng, and Beaver Harbour roads. The work requiring shut down of the water is scheduled to take place on _____.
The hours of the water shut down will be from 8:00 PM to 6:00 AM JUN 21 2018

Please be advised that this water shut down may impact your hot water tank if your tank is not turned off for this period. In order to avoid any accidental damage, please ensure your tank's power is turned off for the duration of the water shut down.

Please ensure you have sufficient water in containers for this period of time. When the water is turned back on, you may experience some initial discoloration in your water. This water is safe for use and should clear up within a few hours.

Thank you in advance for your patience and co-operation. If you have any concerns please contact Rob Ripley - Site Supervisor, at 250-816-5923 or Jason Clark – Project Manager, at 778-674-0765. Rob or Jason will be available 7 days a week to address any questions or concerns.

Thank you,

IWC Excavation Ltd.
