

The Northern Vancouver Island Accessibility Committee is excited to announce that an Accessibility Plan is being developed for the NVI region!

It is the goal of the NVI Accessibility Committee to identify barriers that members of the community face when interacting with local government services and to create a comprehensive plan to address them.

Local governments provide essential services, including:

- Clean Water
- Fire Protection Services
- Street Lighting
- Libraries
- Recreational Facilities & Programs
- Parks
- Local Roads & Sidewalks
- Sewer Systems
- City Hall / Municipal Office Resources & Programs

Take the Accessibility Survey for an opportunity to provide feedback.
